

EXCEL PUBLIC SCHOOL KUNNAMKULAM

Annual Report for the academic year 2020-21

School is the foremost fountain of knowledge children are exposed to. Despite the challenges posed by the COVID-19 pandemic, Excel Public School was able to keep the lamp of learning bright and clear through its vibrant online classes. The online class for Class X commenced on May 18. Classes IX and Vii had online classes from the following week onwards. Finally, the month of June witnessed online classes in full swing from Class X to Class I. All the sessions were interactive ones. Teachers who stayed nearby came to the school to conduct online classes. Six online Parents' Meetings were held for each class that served as platforms for healthy discussions between parents and the school. Integrated project work was given to all the students from class I to Class X as per the guidelines of the CBSE and children completed it with great enthusiasm. Two issues of the school magazine News & Views were brought out which showcased the articles of all the students right from LKG to Class X. Onam, Independence Day, Children's Day and Yoga Day were celebrated with the active participation of the students. Students shot short videos of dances, songs, skits etc and sent them to school. They were compiled and edited to form a full fledged programme. Craft kits were distributed in all the three terms and the videos of how it had to be done were simultaneously sent through Whatsapp. To keep Excellites healthy and fit, videos of different exercises were also sent through Whatsapp. The students were asked to do them, shoot it and sent it back to school. To sum up, successful online classes coupled with other well planned activities made the academic year 2020-21 very productive and creative.
